Press Release Body: Finding [Cheap auto insurance](#) should not be difficult. But talk to anyone and they will usually tell you what a pain shopping for insurance is. It's such a pain that most people will stick with whatever company they're with, even if they know they're not getting the best rates, just because finding a new carrier, and getting quotes, is so time consuming and inconvenient. **Cheap-Insurance-Rates.com** is determined to change that. We think shopping for insurance should be fast, easy and convenient. We think you should be able to enter your information once, and get multiple quotes from multiple carriers. We think insurance companies should be coming to you and competing for your business and that you should be able to view and compare rates from different companies with no obligation and no credit check.

We're not just about auto insurance either. We think you should have the same options when it comes to [Home owners insurance](#) as well. We don't think you should have to fill out multiple pages of forms, each and every time you want a quote from a new company. Instead, we think you should have one simple, single page form to fill out,

quickly and efficiently, right online, to get quotes and offers from a variety of reputable companies.

We're so committed to these beliefs that we designed our site with the consumer in mind, making it fast and easy for you to get the quotes you want, from multiple prescreened insurance professionals. You enter your information, and we keep it safe and secure, sharing it only with our list of reputable agents who are able to meet your needs and offer you the best deals out there.
