[Malibu, CA] - Cliffside Malibu, an elegant recovery facility on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to helping its clients win the fight against addiction on their own terms.

Addiction is a fundamentally personal problem. Addiction recovery, in turn, must be a fundamentally personal process. The most effective treatment facilities are those which empower their clients, by helping them develop the strength they need to heal from the inside-out. In the end, there's no simply no other way to guarantee meaningful and lasting recovery.

Those principles, in turn, are the bedrock of Cliffside Malibu's personalized treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The [drug abuse rehab center](#) has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the best care on the planet to those individuals who need it. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Addiction treatment is a delicate process," said Cliffside Malibu Clinical Director Patricia Freeberry. "To be successful, it has to be administered with the utmost nuance and precision. We give our clients exactly the support they need to get where they're trying to go, which is why so many of them enjoy such lasting and meaningful rehab success."

That success and the precision from which it springs are precisely what distinguishes Cliffside from its competitors.

Most treatment facilities acknowledge the importance of personal empowerment in the healing process. But very few of them actually put their own principles into practice. The unfortunate truth is that far too many "exclusive" clinics fail to help clients develop the skills and strength that are so vital to addiction recovery. As should go without saying, those clients are at an enormous disadvantage in the healing process.

For recovery patients and their families, say Cliffside administrators, those sorts of shortcomings are unacceptable.

"Successful rehab is a matter of life and death," said Freeberry. "At Cliffside Malibu, we understand what's at stake for our clients, and we do everything in our power to help them win the fight against addiction. From professional depression treatment to personal nutrition counseling, we stop at nothing to ensure a positive outcome to the healing process."

Addiction treatment really can change lives-but only if it's administered by people who know exactly what they're doing. The clinical psychologists and licensed clinical social workers at Cliffside Malibu have a long history of helping clients rebuild their worlds from the ground-up. As the center's successful graduates have learned firsthand, no project could ever be more worth undertaking than that one.
