Author: Peter Kesselman
Industry: [Electronics](#)

MOORPARK, CA – TestEquity LLC, an electronic test equipment company, moved to a 75,827-square-foot building on September 21, 2009. This new location consolidates the four-building operation, formerly based in Thousand Oaks for the last 16 years.

"The move to a larger building Moorpark will provide TestEquity with many operational advantages. The increased space allows us to expand our growing sales, customer service, calibration laboratory, manufacturing, and warehouse facilities. Plus, we have room for continued growth.", says Terry Landers, Vice President Operations & Human Resources at TestEquity.

For additional editorial information, contact Peter Kesselman, VP Product Marketing, TestEquity LLC, 6100 Condor Drive, Moorpark, CA 93021, 800-732-3457 x113 or Email peter.kesselman@testequity.com.

About

TestEquity

Since 1971, TestEquity LLC has prided itself in being a "customer first" company, providing premium service and innovative solutions to meet our customers' electronic test equipment needs. We specialize in the sale and rental of new and reconditioned electronic test equipment. TestEquity is a leading distributor of new test equipment from many of the world's finest manufacturers including Agilent Technologies, Tektronix, Rohde & Schwarz, Fluke, Sorensen, Magna-Power Electronics, QuadTech, Instek and others. TestEquity also manufactures state of the art environmental chambers for temperature and humidity testing. Our website - <http://www.testequity.com> - includes our complete product portfolio. We do business with customers worldwide from our new headquarters in Moorpark, California.
